Wały Chrobrego

6.5. In your opinion, what are the most important facilities/buildings in this town?

Opera

Additional questions concerning the Odra-Vistula Flood Management Project  
Subcomponent 1.B: Flood Protection on the Middle and Lower Odra River  
Task 1B.3: Construction of Mooring Facilities

This questionnaire is anonymous – please complete it without stating your personal data

1. What do you think of the reasons for the Investment Project?

It is strongly necessary

2. How will the investment project affect your economic position (revenue)?

No place for sorting and storage

3. What do you think of the strengthening of flood protection?

The strengthening of flood protection is a project we have long waited for, which will improve the safety of the areas neighbouring the river.

I am only concerned about the location of the icebreaker base at Karpia street.

Each ice-breaking operation starts with making a place for ice floe on Dąbie Lake. The inflowing floe

may block an icebreaker going down the river (Podjuchy, Dąbie Lake)
